

PROFESSIONAL SUMMARY

- Proactive ECE student with deep hands-on expertise in Linux administration, network security protocols, and Python automation.
- Technical troubleshooter passionate about resolving network/system anomalies and optimizing internal IT support desks.

PROFESSIONAL SKILLS

Operating Systems and Servers: Linux (Kali, Ubuntu), Windows (CMD, PowerShell), Web Servers (Apache, Nginx).

Core Knowledge: TCP/IP, DNS, DNSSEC, Network Diagnostics, VPN, DHCP, Troubleshooting & Systems Infrastructure.

Tools & Languages: Python, Bash Scripting, Nmap, Testssl, Burp Suite, Wireshark, OWASP ZAP, GitHub, VirtualBox, Docker, AI-assisted Development.

EXPERIENCE

- National Internet Exchange of India (NIXI), New Delhi, MeitY, Govt. of India

Oct 2025 – Dec 2025

Internet Governance Intern

(On-Site)(view Certificate)

 - Mastered core technical mechanisms of Internet Governance, regional routing architectures, and DNS infrastructure hierarchy.
 - Conducted extensive analytical research on validation issues and deployment bottlenecks of DNSSEC adoption across production DNS Resolvers in India.
- National Centre for Communication Security, Bengaluru, DoT, Govt. of India

July 2025 – Sept 2025

Intern – Network Security, SAS Projects

(On-Site)(View Certificate)

 - Collaborated on critical network security frameworks and programmed standalone Python tools to automate system compliance testing.
 - Successfully minimized protocol compliance verification and diagnostic turnaround times by approximately 55 percent.
 - Gained extensive exposure resolving issues within real-world project environments, complex infrastructure, and cyber security auditing.

PROJECTS

- Cellular Security Monitoring & Diagnostics Device

Click for more projects/Live demo

Python, Raspberry Pi

 - Engineered a real-time RF network tracking device deploying RTL-SDR hardware configurations alongside an active Raspberry Pi host node.
 - Implemented adaptive thresholding infrastructure with dynamic baseline calibration, significantly upgrading diagnostic detection accuracy.
 - Developed standalone background logging daemons with structured diagnostic data output and LCD modules for physical asset fault isolation.

EDUCATION

- Gurukula Kangri (Deemed to be University), Haridwar

Nov 2022 – July 2026

B.Tech in Electronics and Communication Engineering

CGPA: 7.42 / 10

EXTRACURRICULAR ACTIVITIES

- Member(Volunteer) Internet Society (ISOC) – Bengaluru Chapter

Nov 2025 – Present

 - Actively engage with technical community leads to coordinate regional IT meetups, structural infrastructure development, and network security awareness initiatives.
- Session Speaker at Gurukula Kangri University, Haridwar

Nov 2025-More details

 - Organized and hosted an infrastructure engineering workshop covering DNS architectures, IPv6 mechanics, and core systems protection workflows for 50+ students.
- Session Speaker at Jawahar Navodaya Vidyalaya, Haridwar

Dec 2025-More details

 - Led a technical outreach seminar and diagnostic forum detailing common cyber attacks and digital responses for an audience of 80+ academic students.
